The REALTOR® PAC Management System

Increases Efficiency:

- Local Associations are able to run and reconcile their own reports.
- Aristotle provides comprehensive training and on-going support.
- Improves data integrity by allowing Locals to verify their members' RPAC investments.

Increases fundraising at the Local level by:

- Identifying non-investing members by board.
- Providing detailed reports by office.
- Identifying members within a certain margin of achieving State Award and Major Investor status.

Samples of Custom Reports available:

- Local Board Performance Report
- Participation Tracking Reports
- State Awards Report
- Lifetime RPAC Report

Local Associations play a critical role in REALTOR® PAC fundraising. The REALTOR® PAC Management System is a fully integrated, real-time comprehensive solution for RPAC data at the national, state, and local levels. It leverages the integrated combination of the on-line fundraising platform and NRDS to track members' RPAC investments. For example, if a member makes a contribution at the state and national level, Local Associations are able to view that receipt in the custom reports and member's record immediately.

Today, Local Associations are using the REALTOR® PAC Management System to help reach their goals. With complete access to detailed reporting on member investments, Local Associations are better able to target fundraising efforts.

Training Sessions

Contact Jennifer Hamilton at Aristotle to RSVP for a session!

Annual Convention – Marriott Marquis Hotel
Friday, November 8th 1:00pm – 2:30pm

December Meeting – California Association of REALTORS® - Los Angeles Office
Monday, December 16th 10:00am – 11:30am

Winter Convention – San Diego – Room TBD
Tuesday, January 21st 2014 9:30am – 11:00am

"I pull reports to show the offices with 100% Fair Share Participation. I pull reports for my General Membership Meetings to show all contributors for the year. I use the Local Board Performance and the Office Performance reports the most. You can pull them by office totals or by individual members. This system has been a tremendous help to me. I encourage everyone to give it a try!" --Becky Stacy, Financial Officer, Jackson Association of REALTORS, Mississippi

"The Aristotle Program will make my life easier as an AE. No more doing this by hand!" --Lance Evans, Association Executive, Clinton County/St. Lawrence County Board, New York

"By giving our local associations access to pertinent information in Aristotle, along with the ability to run certain reports, those local associations have not only taken ownership of the accuracy of the information, but they can research many issues on their own. This saves our associations, as well as our state staff valuable time and resources." John Fridlington, CEO, Florida Association of REALTORS®
