STATEMENT

Thirty-five years of an active litigation practice has provided me with the background to understand the causes of disputes and the experience to resolve the differences. Having represented both sides as an attorney, I am able to approach the negotiation process with an awareness of each side's position. My mediation style is based upon a belief that the purpose of mediation is to find a resolution that works for all the involved parties. My background and experience enable me to be either evaluative or facilitative as the circumstances require. Mediation provides an opportunity to resolve a dispute in a matter of hours, rather than languishing in the court system for months or even years. I look forward to resolving your dispute.
