STATEMENT

While I found the role of advocate very challenging and rewarding, helping parties to resolve their disputes is my true passion and calling. In my opinion, the three essential qualities for an effective mediator are competence, creativity, and tenacity. Through my experience as a real estate litigator, I have acquired subject matter expertise and an ability to drill down on the factual and legal issues that can adjust parties' positions and guide them toward settlement. I am proactive in helping parties prepare for a mediation by identifying the information and decision makers that are critical to the negotiations and I am tenacious in following up on disputes that do not settle on the day of mediation. I enjoy challenging everyone at the table to work collaboratively while adapting myself to the various personalities, emotions, and decision making styles of the participants.
