STATEMENT:

Being involved in a dispute is never fun- it is extremely expensive in terms of time, money and emotional capital. Formal litigation is long and the most expensive, while arbitration can also be expensive- and both have someone else make the final decision for the parties. In mediation, the parties have input and a say as to how the conflict is resolved. The mediator helps guide the parties to this mutual resolution, asking needed questions and focusing on important issues. I have been told by many that my Midwestern upbringing has served me well as a mediator in that I am empathetic to the issues for all the parties involved, I have an easy manner and that I listen carefully to understand the issues and concerns driving the conflict. From my experience as a litigator and my broad mediation experience and training, I help the parties reach a mutual resolution which is the best result for all.
