STATEMENT

As your mediator, I listen first and do not try to force a settlement to keep a batting average, though my resolution rate is over 90%. I look for the unspoken emotional undercurrents of your dispute. Raised in three different cultures, I'm known for my ability to connect and empathize with individuals from all walks of life. I have successfully handled high conflict and highly emotional mediations.

Through my experience as a litigator, I help you "assess and manage your legal risks" by identifying what the opposing party may bring to light at trial or in arbitration and make a calculated business decision as to whether you would benefit from settling. I'm persistent and think outside the box to create solutions where none seem possible.

Several attorneys and parties' reviews state that my compassionate style, ability to listen, expertise in this area, analytical skills and tenacity helped them overcome obstacles to settlement in volatile situations and complex cases.
